## Engagements

Depending on the needs of the case, we have been appointed to a variety of positions at varying steps of the bankruptcy process.

## Examples of Appointments

- Plan Administrator
- Liquidation/Litigation Trustee
- Disbursing Agent
- Creditor Representative
- Chief Wind-Down Advisor

## Staffing

While our objectives don't change from case to case, we customize staffing to ensure the best possible results. The majority of the administrative work is performed by our managers, consultants and support staff whose skills complement the task at hand. Each engagement is fully supervised by a Managing Director, who is available at all times throughout the process to direct the case strategy as well as manage the legal and financial professionals.

## OUR COMMITMENT:

### Focused But Flexible

Whether we step into a case before or after plan confirmation, or when a case converts, regardless of the industry or location, we approach each case with the same strategy - *identify issues; establish timelines; and execute*. We remain flexible along the way so there is no need to be concerned about us pursuing an unproductive strategy on principle alone. After all, when it comes to understanding our objective we are uniquely single-minded on *maximizing creditor recovery*.

## Industries

We have experience in a multitude of industries, from automotive and transportation to telecommunications; from consumer products to retail; to name a few. We will wind down large companies with multiple sites and active employees as well as shells. Candidly, though, regardless of the industry our approach remains the same - *identify issues; establish timelines; and execute*. Unlike the fundamentals of building a business, we believe that the fundamentals of winding down a business are not industry-specific. You just need *communication, accountability and experience*.

## Nationwide Coverage

It really doesn't matter where a case is pending or the location of the debtor - we are there. Our network of professionals extends coast to coast. In addition to our New Jersey headquarters and Connecticut office, we have regional offices in California, Oregon and Georgia.
